Donate your used car to the Kidney Foundation

If your car is turning the rusty color of fall leaves, the National Kidney Foundation of Georgia can help you transform it from a liability into an asset. The foundation's Kidney Cars Program offers a solution that may mean tax relief when the leaves are green again.

Donate your car, boat, truck or motor home to the National Kidney Foundation of Georgia and you may start racking up credits with Uncle Sam. The donation procedure is simple. Interested contributors can call the foundation, and an information packet will be mailed out, complete with a self-addressed envelope for sending signed titles and odometer statements. Soon after receiving the packet, the foundation contacts donors to arrange for a free vehicle pick-up. Vehicles are either auctioned to wholesale dealers or sold for parts. Donors receive an acknowledgement letter stating the year, make and vehicle identification number of the donated car for tax purposes.

in your eyes, but to the National Kidney Foundation of Georgia, it's a capital gain. The foundation will help you make a positive dent in your 1997 balance sheet while you help save lives. Funds raised through the Kidney Cars Program are used to support programs in research, patient services, organ donation, public information and professional education.

Twenty million Americans are currently suffering from Kidney disease and more than 54,000 people are awaiting life-saving transplants. The National Kidney Foundation is dedicated to preventing kidney and urinary tract diseases, improving the health and well-being of individuals and families affected by these diseases and increasing the availability of all organs for transplantation.

For more information, or to donate your vehicles, call the National Kidney Foundation at (404) 248-1315. For tax deduction information, consult your tax advisor.

Public forum to be held in November
